FUJITSU Notebook LIFEBOOK E546

Business Mainstream Desktop Replacement Notebook

Fujitsu recommends Windows.

Enjoy reliability and powerful performance with FUJITSU Notebook LIFEBOOK® E546 with the latest technology enhancements. A comprehensive business feature-set with common port replicator and connectivity options provide the support you need to work with ease and efficiency on your notebook wherever your meeting room or workplace is situated. Choose a notebook with a 15.6-inch (39.6 cm) or 14.0-inch (35.6 cm) display and even reduce its weight with an interchangeable modular bay element.

Reliable and powerful performance

Technology enhancement offers advanced functionality

- Latest Intel® processors and DDR4 RAM boost performance empowering your productivity

Secure and solid protection

Smart security and resistant design

- Integrated fingerprint sensor, SmartCard reader, TPM, among other security options protect your data, while its solid housing and spill-resistant keyboard protect your notebook

Family concept continuity

Reduce complexity and drive down evaluation and deployment costs

- BIOS and mainboard for one bit image, components, modular bay elements, accessories and port replicator are shared across the LIFEBOOK E5 Series. Unique to Fujitsu, one port replicator benefits 8 devices across the LIFEBOOK line: Ultrabook™, notebooks, 2 in 1, and mobile workstation and is compatible with the predecessor

High-capacity battery pack

Long lasting performance for extra working hours

- Take advantage of the high-capacity battery pack to support efficient working in business environments

The choice is yours

Two form factors, one design

- Choose a 14.0-inch (35.6 cm) or 15.6-inch (39.6 cm) HD or Full HD anti-glare display and enjoy the same great functionality

Notes

1. One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.
2. Some USB devices (e.g. mobile telephones) require a driver in order to utilize the USB charging function. In this case, the USB charging function will not work when the notebook is switched off, as no drivers are active when the notebook is switched off.
3. Battery life tested using Bapco® MobileMark 2014 Office Productivity Workload and Windows® 7 operating system, and may include audio muted and power saving utility enabled. Battery life will vary depending on the product configuration, product model, applications loaded on the product, power management settings on the product, Operating System, and the product features used by the customer. As with all batteries, the maximum capacity of the installed batteries will decrease with time, usage, and how often the batteries are charged by the user.
4. Service and warranty turnaround time may vary by country and product. The International warranty is only valid for products purchased in North, Central, and South America.
